ABOUT US

For nearly 40 years, the **Western Justice Center (WJC)** has been a leader in conflict resolution education and restorative justice practices, partnering with schools and communities across the Greater Los Angeles Area.

WJC partners with K-12 schools and districts to implement restorative practices as trauma-informed alternatives to punitive discipline, supporting systemic and sustainable change for lasting impact.

Our programs help the highest-need students lead positive change in their schools and communities—proving that with the right tools, every student can thrive.

OUR IMPACT

When students are equipped with the skills to resolve conflict peacefully, to listen with empathy, and to lead their communities, they don't just feel safer at school. **They learn more.**

They show up more. They become more.

At Western Justice Center, we empower youth, educators, and communities with conflict resolution skills that foster safe, inclusive schools and long-term success.

Conflict resolution is a vital life skill—supporting personal growth, workplace readiness, civic engagement, and community leadership.

Today, WJC leads the largest Restorative Education initiative in LA County, with staff supporting **more than 40 schools** across multiple districts.

↑ Grades went up

High school A–C grades rose 9% in two years from 71.5% to 79.5%. Middle school rates climbed 5.6%.

★ Students showed up

Chronic absenteeism dropped 6.2% in a single year, and attendance improved an average 12%.

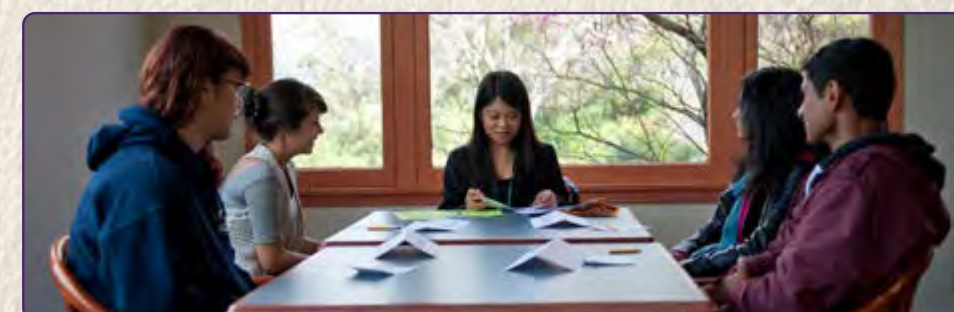

♥ Belonging grew

Elementary belonging scores rose 5% overall, with five of seven schools posting gains of 6–11%.

✓ Conflict resolved

90% of middle school peer mediations were resolved without further conflict, aggression, or suspension.

▲ English learner gains
